Location: Pato Branco, Paraná, Brazil

WhatsApp: [+55 46 98828-1914](https://wa.me/5546988281914)

LinkedIn: www.linkedin.com/in/picolodesign

English: B2 (Upper-Intermediate)

Professional Summary

Product Designer with over 7 years of experience in UX/UI for digital platforms (web, mobile, and apps) and 12 years working in the technology sector, with experience in ERP, SaaS, CRM, and PLG systems, in addition to acting as a University Professor.

Specialist in user-centered design, with strong performance in user research (quantitative and qualitative), hypothesis validation with A/B testing and usability testing, high-fidelity prototyping in Figma, and the construction and evolution of Design Systems and reusable components. Utilization of Artificial Intelligence in the discovery and design process for acceleration and productivity.

Experience in project leadership, conducting ceremonies, Lean Inception facilitation, product management, and collaboration with multidisciplinary product and engineering teams in agile environments (Scrum and Kanban). Analytical and creative profile, focusing on product metrics, Growth Design, and user journey optimization.

Solid knowledge in UX/UI, information architecture, visual hierarchy, digital accessibility (WCAG), and responsive design, plus knowledge in HTML, CSS, Databases, and programming. Excellent communication with decision-makers and clients (stakeholders).

Professional Experiences

Sisand — Product Designer

Since August/2025

- Utilized Claude Code for component coding, improvements, and new implementations on the platform.
- Applied AI-First Design with prompt structuring and visual refinement.

- Created and continue to evolve the platform's Design System, promoting consistency, scalability, and efficiency among product and development teams.
- Actively participate in project management, collaborating on Product Roadmaps, detailing tasks, making strategic product decisions, and providing support to the development team and Service Desk.
- Evolved the legacy system interfaces in Delphi and MVC to the new Angular architecture. Conducted on-site visits and online interviews/research with clients.
- Conduct interviews with clients and discoveries with internal teams and clients.

UniMater — University Professor

Since July/2025

- Teaching the Information Accessibility course in the Information Systems Bachelor's program.;
- Drafted educational content based on the course syllabus, developing relevant material for student learning..

Leads2b — Senior Product Designer

August/2022 – May/2025

- Led end-to-end UX and UI projects for web and mobile platforms, from conception to final delivery, ensuring intuitive solutions aligned with business goals.
- Created and optimized the Product Discovery and User Research process, encompassing everything from demand receipt and user research to validation with end-users, acting as DesignOps.
- Conducted usability testing and product data analysis to support strategic decisions and iterate on solutions, optimizing the user experience with adjustments in prototype resolution.
- Maintained and evolved the Design System, creating components, promoting consistency, scalability, and efficiency across product and development teams.
- Actively participated in project management, elaborating Product Roadmaps, detailing tasks, making strategic product decisions, and supporting the development, sales, and customer success teams.
- Strategically contributed to the platform's evolution, proposing improvements grounded in user-centered design principles and research data, aiming for product innovation and friction reduction.
- Developed pages using Figma and Elementor (WordPress), including artwork for landing pages and design patterns.

INDT — Product Designer

May/2021 – August/2022

- Operated across the entire product lifecycle, with active participation in Lean Inception sessions and collaboration with multidisciplinary squads.
- Developed and maintained Design Systems and Style Guides for various projects, ensuring the standardization and reuse of components.
- Created brands and visual identity manuals for spinoffs.
- Acted as an end-to-end Product Designer, creating high and medium-fidelity UX prototypes for web and mobile.
- Maintained active communication with stakeholders, gathered requirements, documented processes, and created product flows.
- Participated, alongside the Human Resources team, in technical interviews to hire new UX Designers.

UniMater — University Professor

July/2021 – December/2021

- Taught the User Interfaces and Multimedia course in the Information Systems Bachelor's program.
- Drafted educational content based on the course syllabus, developing relevant material for student learning.

Sponte — UX Analyst

February/2020 – June/2021

- Acted as a UX Designer in the Education, Languages, and Medical Clinic verticals.
- Contributed to the creation and maintenance of the Design System for the new Educational and MedPlus systems.
- Worked directly in the analysis and gathering of requirements with stakeholders for the Languages system.
- Participated in the creation of the new version of web and mobile systems for the Education and Medical Clinic verticals, basing decisions on user-centered design principles and research data.
- Conducted internal training on UX Design and prototyping for teams.

Viasoft — Requirements Analyst

November/2016 – January/2020

- Redesigned the Desktop Point of Sale (POS) system, improving the user experience and modernizing the operation.
- Enabled the conception of a mobile sales system for gas stations, acting as a requirements analyst and UX Designer, from the idea stage to user testing.
- Acted as a Requirements Analyst for the Fuel and Energy chain systems.
- Managed the homologation and integration of payment systems with strategic partners such as Sitef and PayNGo, ensuring the functionality and security of transactions.
- Contributed to structuring the architecture of a new end-to-end product pipeline, which optimized the process from requirements gathering to the release of versions for users.
- Performed on-site support and analysis with clients, solving complex system problems.
- Led the homologation and certification process of the PAF-ECF POS system with the regulatory agency, ensuring adherence to tax norms.
- Created and maintained SQL queries for Oracle and Firebird databases.
- Created internal and public software documentation.
- Worked directly with invoices and tax documents, ensuring regulatory compliance and adherence to Brazilian legislation.

Porthos Info — Co-Founder

April/2018 – December/2018

- Co-founder of "Portos Learn", a startup incubated at the Pato Branco Technology Park, developed as a capstone project (TCC).
- Learn was a web platform aimed at making life easier for teachers and content creators in the search for academic materials, while also fostering the exchange of experiences among users.;

Viasoft — Support Analyst

February/2014 – November/2016

- Provided customer support and resolved complex technical problems.
- Created and delivered training for clients and new employees.
- Developed manuals and software documentation.
- Recorded online training videos for the system.

Piccolo Design Digital — Founder

Since February/2014

- Act as a Graphic Designer, freelance UX/UI Designer, and User-Centered Consultant for digital products.
- Conducted analysis and prototyping for the aviary and shed control and management application for InoBram Automations.
- Designed the new product iconography for VIASOFT's ERP systems, contributing to interface modernization and navigational clarity.
- Created various visual materials, such as logos, portfolios, banners, social media posts, etc.
- Developed complete brands and visual identity manuals.
- Created pages for the Leads2b website in Figma and Elementor (WordPress).

Education

- **Specialist in Digital Design and Multimedia**
 - Estacio de Sá University
 - 2018 – 2020
- **Bachelor of Information Systems**
 - UNIMATER University
 - 2014 – 2017
- **Information Technology Technician**
 - SENAI
 - 2012 – 2013

Courses and Certifications

- **Conversational English** – Plinio Komanski (*Since Oct/25*)
- **Product Delivery & Scrum** – Bruna Fonseca (*Dec/25*)
- **IA/UX Lab Workshop** – UX Unicórnio (*Jul/25*)
- **UX Metrics** – PunkMetrics (*Jun/2025*)
- **Product Design 4.0** – BTX Courses (*Jun/2025*)
- **Design Leadership** – BTX Courses (*May/2025*)

- **Leadership Training** – Conquer School (*Sep/2023*)
- **Digital Business Metrics** – PM3 (*Sep/2023*)
- **Product-Led Growth** – BTX Courses (*Dec/2022*)
- **Design System Specialist** – Meiuca (*May/2022*)
- **Certified Lean Inception Facilitator** – Caroli.org (*Sep/2021*)
- **General Data Protection Law (GDPL)** – CertiProf (*Oct/2021*)
- **Usability Evaluation** – UFRGS (*May/2021*)
- **English Course** – Washington Academy (*Aug/2020 to Mar/2022*)

Lectures Given

- **UX Design: In practice, theory is different** – UniMater (2022)
- **Prototyping Fundamentals** – Sponte (2020)
- **Design Thinking: Your ally in Development** – Viasoft MeetUp (2019) and Viasoft Connect (2019)
- **Petroshow POS Redesign: Methodology and Processes** – DevConference (2018)

Tech Skills

- **Product Design & Growth:** UX/UI Design for web, mobile, and desktop, User-Centered Design, Growth Design, Product Discovery, Product Roadmap, A/B Testing, Wireframing, Prototyping, Data-Driven Design, Product-Led Growth (PLG), Prototyping with AI.
- **Research & Analytics:** User Journey, Qualitative and Quantitative Research, Product Metrics (Adoption, Conversion, Retention, Activation), Data Analysis, Usability Testing, Google Analytics, Mixpanel, UserPilot, LogRocket, Clarity, SQL, User behavior analysis.
- **Design:** Figma, Pencil, Adobe XD, Design with AI, Creation and maintenance of scalable Design Systems, Style Guides, Documentation, Information Architecture, Handoff, Accessibility (WCAG), Responsive Design, Mobile First..

- **Methodologies:** Lean Inception, Agile Methodologies (Scrum, Kanban), Product Discovery, Product Validation, Design Thinking.
- **Leadership and Management:** Leadership, Design Leadership, Project Management, Workshop and Training Facilitation, Roadmaps, Task Scoping, Strategic Product Decision-Making, Multidisciplinary Collaboration, Stakeholder Management, Product Metrics.
- **Communication:** Communication, Empathy, Lectures, Training, Teaching..

Software and Tools

- **Figma:** Advanced – 6 years
- **Adobe XD:** Advanced – 4 years
- **Adobe Photoshop | Adobe Illustrator | Adobe Suite**
- **Jira | Trello | Azure DevOps | ProductBoard | Monday | Notion**
- **HTML | CSS | Git | Github**
- **Google Analytics (GA) | MixPanel | UserPilot | LogRocket | Clarity**
- **Wordpress | Elementor**
- **Antigravity | Claude Code | Claude Design | Figma Make | Lovable | Stitch | NotebookLM**

References and Recommendations

“It is my pleasure to recommend Rodrigo Picolo, with whom I had the opportunity to work directly at Leads2b, where he acted as a Senior Designer on the Product team. Rodrigo has always demonstrated an exceptional level of responsibility and commitment to his deliveries, valuing a high standard of design quality with real business impact. His ability to translate strategic challenges into practical and well-executed solutions made all the difference in the projects we collaborated on. Beyond his technical competence, Rodrigo has a remarkable ability to lead design teams. He knows how to guide the team with clarity and focus, always aligned with the company's objectives and in constant dialogue with leadership. His role was fundamental to the scalability of both the team and the product, significantly contributing to the evolution of our operation. I highly recommend Rodrigo for his ethical posture,

exemplary professionalism, and results-oriented strategic vision. He will certainly be a differentiator in any product or design team."

- Herom Felipe Canova – Head of Product and Design | Leads2b
